

Port Terminals: Naantali & Skogby

Cargo handling, storage and port services

Besides shipping services, Meriaura Group offers also cargo handling, storage and port services.

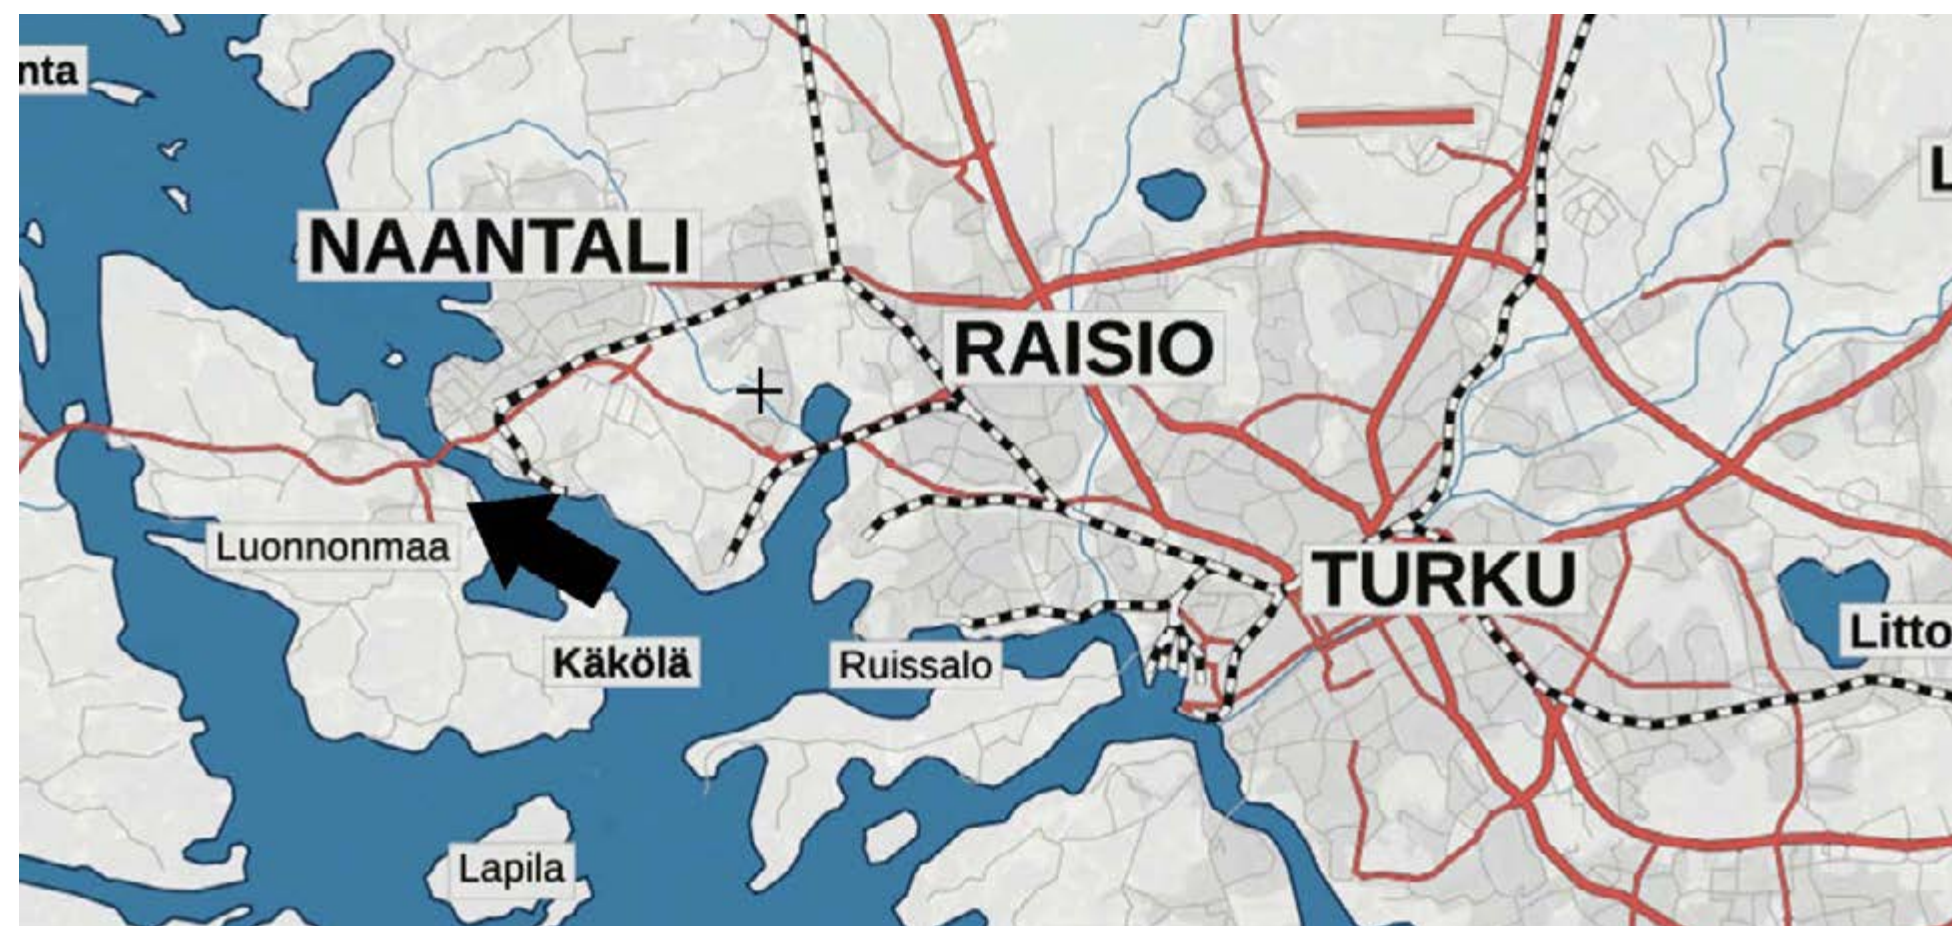

Meriaura Group has two developing port terminals in Southern Finland, in Skogby, Raseborg, and in Luonnonmaa, Naantali. We offer material handling and storage services and field space, e.g. to the needs of the bio and circular economy. At the moment we are handling gypsum, agricultural materials and biomass.

VG-Port, Naantali

VG-Port is a newly built cargo terminal in Naantali Luonnonmaa, specialised in the products of bio and circular economy. We offer
